Metro Station, Tell Me What To Do

Hey, hey! Hey, hey!

Come on, don't feel this way You're going to solve this for one day You wanna get high and then complain? Girl, I only think of you always and forever, and forever

Remember when you just came out When everyone knew what you were all about You faked your death and that was fun But girl, I think it's just begun

You take another line And you feel fine, this time And it goes like this

Girl, alright, tell me what to do, girl I'm so in love, whoa I'm so in love with you, you, you

I'll just stop Right around when things get bad You said that and much has padsed Come on now, this'll be real fast Darling, I know you need the cash Yeah, move like that Yeah, yeah, yeah, move like that

"The sky will clear," you say with ease You leave real fast to get relieved Your heart was locked I had the key Now this disease won't let us be

You take another line And you feel fine, this time And it goes like this

Girl, alright, tell me what to do, girl I'm so in love, whoa I'm so in love with you, you, you

Come on, girl, I need you (Just to try to break through) Everything about you (Makes me wanna leave you) Come on, girl, I need you (Just to try to break through) Everything about you (Makes me wanna leave you)

Girl, alright, tell me what to do, girl I'm so in love, whoa I'm so in love with you, you, you

Girl, alright, tell me what to do, girl I'm so in love, whoa I'm so in love with you, you, you

Everything about you makes me want to leave you
