

MGMT, We Don't Care

Step out of your skin,
put it in a jar.
I thought they were my friends
but they were cannibals.

Where should I begin?
Tell you what I am?
I'm a normal alien.

We thought we were alone
but we had just started
We thought we left home
but we never departed
There's poison in the air
but we don't care.

Tell you what I'll do
we could fall in love
Take me home with you
I'll do what you want

Put me in a lab
splice all of my genes
we can fall in love again

We thought we were alone
but we had just started
We thought we left home
but we never departed
There's poison in the air
but we don't care

We thought we were alone
but we had just started
We thought we left home
but we never departed
There's poison in the air
but we don't care

We thought we were alone
but we had just started
We thought we left home
but we never departed
There's poison in the air
but we don't care

We thought we were alone
but we had just started
We thought we left home
but we never departed
There's poison in the air
but we don't care

We don't care
We don't care
We don't care
We don't care

We don't care, don't care
We don't care, don't care
We don't care, don't care
We don't care, don't care
We don't.
