

# Michael Jackson, All Night Dancin'

I don't like it, baby  
When you're stopping me on the floor  
'Cause the more I keep on dancing  
The more I keep wanting some more  
I don't care what you're saying  
You're talking in my ear much too loud  
And the music's taking my body  
On a trip from nine to five  
Keep me dancing all night  
All night, all night  
Gonna dance up fire  
Calling engine number 109  
There ain't no chains to hold me  
Gonna burn this place down till five  
You can't stop this fever  
'Cause my temperature is burning hot  
And all I wanna do is dance, dance  
Sweating from my face to my feet  
Keep me dancing all night  
Keep me dancing all night  
Keep me dancing all night  
Keep me dancing all night
