

Michael Jackson, I Have This Dream

verse 1

some people say
I live in a fantasy
because I see the world
differently
visions come to me
in my sleep
I closed my eyes
to see what God is showing me

close your eyes
and imagine with me
see the wonder
in every living thing
if we can live our lives
the way it is in my dreams
love will take us to a place where
god can be seen

this is my dream

I have this dream
this i believe
the world a place for all humanity
if we could take love to it's highest level
more than the world has ever seen
I have this dream

verse 2

let's put Gods love on display
angel of love come my way
it really up to you and me
one world together in harmony

in my dream I see heaven
and the face of the one perfect being
I see people turning into angels
and God giving them their wings

this is my dream

chorus

I have this dream
this I believe
the world's a place
for all humanity

if we could take love
to it's highest level
more than the world has ever seen
I have this dream

repeat chorus
