

# Michael Jackson, If'N I Was God

If'n I was God  
Well just for spite  
I woulddn't set the sun at night  
'Til everyone was treated right  
By everyone else they see

If'n I was God  
I'd fix it so without explaining  
Folks would know, they'd know  
What's going on inside  
Of everyone else like me

Nobody hurt nobody else  
Oh no I wouldn't let it be  
Nobody have a need to pray  
Except for thanking me

If'n I was God  
I'd make us wise  
So everyone could realise  
That everywhere beneath the sun  
Everyone needs, everyone

And God that in heaven what I would do  
If'n I was you  
If'n I was God  
Love each other, reach out  
And touch somebody's hand
