Michael Jackson, Melodie

I woke up yesterday Knowing I was lost and passed away I felt my destiny were sad the rain Going know her way

There's sound of the melody
I got song you enchanted me
And the sound of your voice
Make my heart keep turn
To the music got to love that filled my mind
Melodie, you're my symphony
All the song to me
You're my only

Melodie, you're my everything Make me wanna sing For you only Oh, oh (I see you love me)

The long and winding road
Is much shorter now that you're here with me
But when you lend my mind
Have an answer now love don't hold me
All the girls have bringhten now
And the darkness is lighter now
Is my mind I can hear
The band start to play
Hello tomorrow
Goodbye you today

Melodie, you're my symphony All the song to me You're my only

Melodie, you're my everything Make me wanna sing For you only

Beautiful morning Oh happy day And you know there's music to my ears Every word that you say

Melodie, you're my symphony All the song to me You're my only

Melodie, you're my everything Make me wanna sing For you only

(Fade out)
