Michael Kiwanuka, You Ain't The Problem

love makes you blind i hope to find who I believe in

get back in line I can't deny myself show me the feeling

you got me wrong if you don't belong live in the trouble

don't hesitate time heals the pain You Ain't The Problem

I lived a lie love is the crime it's you I believe in no need to play myself no need to die I am only human

I am done you got to put me on I know when you come along

don't hesitate time heals the pain You Ain't The Problem
