Michael Mind Project, Nothing Lasts Forever (feat

Nothing lasts forever, so let's dance tonight Like we'll never see the morning light Let's live it up when the sun goes down Let's live it up when the sun goes down

Nothing lasts forever, so let's dance tonight Like we'll never see the morning light Let's live it up when the sun goes down Let's live it up when the sun goes down

Come on, come on These days just live for the moment You can, you can get what you wanted No need for worrying, it goes on and on

Nothing lasts forever, so let's dance tonight Like we'll never see the morning light Let's live it up when the sun goes down Let's live it up when the sun goes down

These days just live for the moment You can, you can get what you wanted __ now or never It gets better __ It's now or never
