Michał Kuczyński, All I Had

Leaves began to fall
I?m alone
My heart is burning without you
I?m feeling so strange
And empty inside
And all I think about is you
I pray, that I can live
My life again
Up to the moment we first met
But you decided just to leave
My memories disappeared along with you

All I had most, dear
Is gone forever
Your warmth I felt each day
I see now in frames
I gave all I had
And you've turned your back on me
You took the world
Leaving me behind

I trying to go on
Pretending to be strong
My mind drives me to madness
I try to forget
That we ever met
But my thoughts just won't let go
I hope that you be fine
Go get your new live
Don?t worry
I just keep floating
I pick myself up
And dust my off
Days will pass and so will you

All I had most, dear
Is gone forever
Your warmth I felt each day
I see now in frames
Baby, I gave all I had
And you've turned your back on me
You took the world
And left me way behind

Now listen
All I had most, dear
Is gone forever
Your warmth I felt each day
I see now in frames
But I gave all I have
Now give it back to me
Cos baby you took the world
And left me way behind
