

# Mick Smiley, Magic

Empty woods, endless tunes  
You see me, I see you  
In the crowd, see my face  
I love you.

Take my hand and walk with me  
Love you do will always be  
And deceit can come true  
If you believe believe it will

I believe it's magic  
I believe it's magic  
I believe it's magic, magic, magic

I'm here for you, that's what you said  
I never felt like this with woman, any woman  
Strangers meet, strangers dream  
Some call it love, I call it magic  
Now I'm in you and it feels so right  
So hold on, hold on tight  
Yes its true  
I believe, believe in you  
I believe it's magic  
I believe it's magic  
I believe it's magic, magic, magic  
I believe it's magic  
I believe it's magic  
I believe it's magic, magic, magic

My baby told me once  
My baby told me twice  
My baby told me three times  
Three times nice  
Please, please, please...let's make some  
I believe it's magic  
I believe it's magic  
I believe it's magic, magic  
I believe it's magic  
I believe it's magic  
I believe it's magic, magic  
Magic, magic  
Took my hand and walked with me  
She said I'll tell you Mickey, I do believe  
In the power of love, your magic wand's  
The thing that makes me sing this song  
Please - please - please  
I believe it's magic  
I believe it's magic  
I believe it's magic  
Magic  
Magic, magic
