

Mika Urbaniak, Don't Speak Too Loud

Don't speak too loud
'Cause I don't wanna hear a word you say
I don't wanna listen anyway
Don't speak too loud

Don't say a word
There only be the ones you wanna hear
If I listen closely I might hear
Don't say a word

'Cause when you think you win you always loose
We may live to regret the things we often choose
If I got it right, then maybe some night
Our dreams could all come true

Don't speak too loud
Don't don't speak too loud
No, no, no, no, no, no

Don't make a sound
'Cause I don't want another melody
I just wanna feel your tender kiss
Don't make a sound

Don't say goodbye when you can always say hello
Maybe don't let it out, maybe just let it go
If I got it right, then maybe some night
My feelings will start to show

Don't speak too loud

'Cause when you think you win you always loose
We may live to regret the things we often choose
If I got it right, then maybe some night
Our dreams could all come true
Don't speak too loud
Don't, don't speak too loud
No, no, no, no, no
Don't speak too loud (don't speak)
No, don't speak too loud
No, no, no, no, no.
