

Mikolas Josef, Me Gusta

there's something about you
I can't keep my mind straight when I'm around you
feel like my world ain't turning without you
got me messed up there's
something about you
something about you

it goes like mama
don't been Balenciaga
no Gucci on the gram like papapapu
go harder I want to hear it louder
kill me with the love like ratatatu
and I;m like

I love it me gusta
I love it me gusta
I love it me gusta
I love it me gusta
I love it me gusta

baby now hold up
I waited too long I want you alone now
give me a sigh my body can't hold out
no lie no lie
there's
something about you
something about you

it goes like mama
let's do what e want to
now waste no time with that blababla-u
no lie you got me on fire
and I'm high off your vibe like upaap-u

and I'm like

I love it me gusta
I love it me gusta
I love it me gusta
I love it me gusta

go low low low
just give me that good love you got that good stuff
go low low low
cause all I want to do is dance with you baby
go low low low
just give me that good love you got that good stuff
go low low low
cause all I want to do is dance with you baby

I love it me gusta
I love it me gusta
I love it me gusta
I love it me gusta
I love it me gusta
I love it me gusta
I love it me gusta
I love it me gusta
