Mild High Club, Mild High Club - Homage

Someone wrote this song before And I could tell you where it's from The 4-7-3-6-2-5-1 to put my mind at ease Please just have a laugh with me 'Cause you know I'm borrowing by now These sounds, have already crowned Come on, it's a silly dream Dreaming of the imagery unfound The view sits nice from that cloud And if you want a piece of my thoughts There's a coin worth flipping Why don't you toss? Please just have a laugh with me 'Cause you know I'm borrowing by now These sounds, have already crowned Come on, it's a silly dream Dreaming of the imagery unfound The view sits nice from that cloud And if you want a piece of my thoughts There's a coin worth flipping Why don't you toss?
