

# Miley Cyrus, One in a milion

How did I get here  
I turned around  
And there you were  
I didn't think twice or rationalize  
Cuz somehow I knew  
That there was more than just chemistry  
I mean I knew you were kind of into me  
But I figured it's too good to be true  
I said pinch me where's the catch this time  
Can't find a single cloud in the sky  
Help me before I get used to this guy  
They say that good things take time  
But really great things happen in the blink of an eye  
Thought the chances to meet somebody like you were a million to one  
I can't believe it  
You're one in a million  
All this time I was looking for love  
Trying to make things work  
They weren't good enough  
Til I thought I'm through  
Said I'm done  
Then stumbled into the arms on the one  
You're making me laugh about the silliest stuff  
Say that I'm your diamond in the rough  
When I'm mad at you  
You come with your velvet touch  
Can't believe that I'm so lucky  
I have never felt so happy  
Every time I see that sparkle in your eyes  
They say that good things take time  
But really great things happen in the blink of an eye  
Thought the chances to meet somebody like you were a million to one  
I can't believe it  
You're one in a million  
All this time I was looking for love  
Trying to make things work  
They weren't good enough  
Til I thought I'm through  
Said I'm done  
Then stumbled into the arms on the one  
I said pinch me  
Where's the catch this time  
Can't find a single cloud in the sky  
Help me before I get used to this guy  
They say that good things take time  
But really great things happen in the blink of an eye  
Thought the chances to meet somebody like you were a million to one  
I can't believe it  
They say that good things take time  
But really great things happen in the blink of an eye  
Thought the chances to meet somebody like you were a million to one  
I can't believe it  
You're one in a million  
One in a million  
You're one in a million
