Miley Cyrus, Pumpin

Hey, get up, get loud Start pumpin' up the party now Hey, get up, get loud Start pumpin' up the party now It's the same old, same grind But we don't feel we're wasting time Not so bored that we can't find A better way My friends, my kind No one's getting left behind If they did it'd be a crime That's why we say Let the music start a revolution No time to play it safe Hey, get up, get loud Start pumpin' up the party now Hey, get up, get loud Start pumpin' up the party now They can't, we can Parents might not understand Havin' fun without a plan But that's what we do We're all here, let's go Gotta make this party grow Together we can make it blow Right through the roof The music's gonna start a revolution Too late to play it safe Hey, get up, get loud Start pumpin' up the party now Hey, get up, get loud Start pumpin up the party now We don't have to paint by numbers Let our voice come out from under Hear it rise, feel the thunder It's time to lose control Hey, get up, get loud Start pumpin' up the party now Hey, get up, get loud Start pumpin' up the party now
