

Milky Chance, Like A Clown

I feel like a clown
Wanna make you laugh
Never wanna drag you down
Wanna lift you up
Never wanna make you cry
Wanna make you feel
Let's get high
My feet are off the ground
My head is somewhere else
And my heart is way too loud
Are you that kinda love
Are you gonna freak me out
I guess I fell in love
With your ability

Let me be your clown
Drive you all around
Take you outta town
We can fly away
Our cloud is number 9
Never coming down
We never coming down

Do me, do me
You do me good
You do me good

I feel like a clown
Never wanna drag you down
Never wanna make you cry
Baby let's get high

I feel like a clown
Wanna make you laugh
Never wanna drag you down
Wanna lift you up
Never wanna make you cry
Wanna make you feel
Let's get high
My feet are off the ground
My head is somewhere else
And my heart is way too loud
Are you that kinda love
Are you gonna freak me out
I guess I fell in love
With your ability

You do me good
You do me good
Do me, do me

You do me good
You do me good

Baby let's get high
