## Milky Chance, Troubled Man

You see me falling through the sky I landed here, I don't know why Everybody acting strange Everybody playing games I don't wanna be here Can you please just skip the scene I wish that I could turn back time and leave

You better get back down
Hands over your head
Better shut your mouth
Listen what they say
Remember you don't have a chance anyway
Anyway
Troubled Man

Every place that I have found
Never had a common ground
All you did was acting strange
All you did was playing games
I don't wanna be here
Can you please just skip the scene
I wish that I could turn back time and leave

You better get back down
Hands over your head
Better shut your mouth
Listen what they say
Remember you don't have a chance anyway
Anyway
Troubled Man
