

Mini Mansions, Vertigo (ft. Alex Turner)

Oh, you know me, from all my videos
Isn't it time we hit the road?
Oh, you want me, that's all you need to know
Wish you were mine, I got to go
Oh, you miss me, our love's in stereo
Isn't it finer in mono
Oh, you feel me, I rim from head to toe
You say goodbye I say hello

Oh you know, that's how it goes
Oh you know, that Vertigo !
Oh you know, how
Picture every moment below
Don't you know now
Give me that Vertigo !

Circle take shift witchcraft
She's miss been there did that
On bought the cat suit
Am I used to raising the roof
Preparing the truth I thought I wasn't good at
Was losing my mind
Once you showed me how the night supposed to sound
I would realize that then we're never right
Shook my eyes, well then she's ever looking like
A million dollars in a briefcase or a duffle bag by high noon tomorrow
Just make sure you're not followed
And since you're such a stunner
Send us something sunset color
Let's make love to one another
Run for cover!

Oh you know, that's how it goes
Oh you know, that Vertigo !
Oh you know, how
Picture every moment below
Don't you know now
Give me that Vertigo!

Oh you need me, I can't see from the sky
Running a life too cool to die
Oh you move me, crescendos cuff the link
She's on the verge, I'm on the brink

Bust the night, where's the light from the door
Bust the sight as you find what you're dying for
Bust the night, where's the light from the door
Bust the light where's the night you keep hiding for
Where's my mind, what's that knock on the door

Oh you know, that's how it goes
Oh you know, that Vertigo!
Oh you know, how
Picture every moment below
Don't you know now
Give me that Vertigo!
