Mint Condition, So Fine

Such a beautiful lady The kind you find in a dream And dreams are so real for me

With eyes so warm and soothing They put me in a trance And I imagine us by the warm cozy fireplace

The light shines on your face Your smile gets me higher and higher My heart starts to race

I gotta say what I feel Cause girl you look so good to me

Chorus:

So fine lady So fine you sway me So fine lady So fine you sway me

Verse:

Can't believe my eyes Take me for a ride

Such a woman of quality Your body's so supreme When you dance you sway so elegantly

Girl you simply dazzle me You put me in a trance And I imagine you and me Just kissin away

My fingers in your hair Your embrace holds tighter and tighter Your touch makes me say

I gotta stop to look Cause girl you look so damn good to me
