

# Miss Angie, Let's Get Together

Let's get together, let's be in love  
Let's get together, let's be in love always  
Our hearts beat the same beat  
The trees and plants as well  
I hope we're holding hands  
When we're caught in the air  
Blink, blink, blink we're new  
Old is made new through and through  
Let's get together, let's be in love  
Let's get together, let's be in love always  
Roll out the carpet  
Bang those party drums  
Spin me around, I finally see the good one  
We get everything we wanted  
Everything we wanted, everything we wanted...  
I adore you  
I close my eyes, letting it all come soon  
Let's get together, let's be in love  
Let's get together, let's be in love always  
Always, always...  
Let's get together, let's be in love  
Let's get together, let's be in love always
