(feat. Redman)

[Missy]

Uhh, 3000 baby, uh huh, ooh, raunchy, raunchy

[Redman]

Good riddance, to niggas and bitches bullshittin  
I house MC's like baths and full kitchens, ready or not  
Doc, hood lynchin, icy flows, I wrtie with wool mittens  
Its two not one, Missy dot dot com, come once in the blue like free hot lunch  
So once its on, turn it up, chickens flockin in  
Shoppin at birds are us, murderous, don't blame me, blame the music  
I write with napalms in my hands, flame the fuses, like ca psss, off you go  
I'm nice battin, I practice when the park is closed  
I'm that man who squats out of jeeps and vans  
Jump to roof to roof on the TV cam, I fuck a model  
I go out with the cheapest tramps, pussy have me trippin  
Like Kima, Keisha and Pam, I remain cool like, like open hous on a school night  
Animal House gettin thrown out for food fights, PPP strictly don't give a fuck  
An Brick City niggas strictly don't give a fuck

[Missy]

Let me intervene, come between, like dick through your jeans  
Hang down to your knees, its mwa the don-wan, carry on, D.A.N to the danger  
Y'all MC's in a whole lot of danger, change up all your rhymes you need beats  
My beats you see completely unique, forgive thee  
See its the shots of Henessey thats in me, Reggie Noble through after me

[Redman]

It takes two to tingle, and two to fuck  
I done fucked in Range Roves to Isuzu trucks, used to move weight  
Now you makin moves to duck, built solid without bolts, screws and nuts  
Pussy tight jiffy lube it up, Doc came up, hoes use to hang up  
Now my arm close hang up, my crew is deeper than Karl Kani pockets  
We don't buy bullets, we ask what size rockets, for thee occasion  
One shot will have you ravin', like Symone when the four four is blown  
Two minutes later I'll make it hotter, snap you from the vine  
To my um blada a boom glada

[Missy and Redman]

So what you wanna do, what you wanna do

[Redman]

Yo I got the chicken, the brew taken next, an much room Def Squad in the house  
Drop you drawers, tell your boyfriend ease up, and park his car

[Missy]
