

# Missy Elliott, WTF (Where They From) ft. Pharrell

Life, life, life

The dance that you doing is dumb  
How they do where you from?  
Stickin' out your tongue  
Girl, but you know you're too young  
A bunch of girls do it and the shit looks fun  
That's how they do it where we from  
You know it don't start till one  
That's how they do it where they from

I'm so faded, no exaggeration  
Bucks breakin' like a percolation  
Boys to the yard for some hip spankin'  
Where you make it drop down like you in the matrix  
Can't take it, them chicks been fakin'  
Y'all still sleep, better stay awakened  
Hot new dance for the hood to make it  
Make the dope move fast, make them think you drinkin'  
Head to the floor don't collect that though  
You better huddle up cause the beat's so cold  
Pop that, pop that, cock and reload  
This another hit, I got an ace in the hole  
Boys on my back, playa did you peep that?  
You got a small stack, playa, you can keep that  
I'm a Big Mac make you wanna eat that  
Like ..... it to the ...  
Junk in the trunk make you pumps in the bump  
Girls wanna have fun make you stickin' out your tongue

The dance that you doing is dumb  
How they do where you from?  
Stickin' out your tongue girl  
But you know you're too young  
A bunch of girls do it and the shit look fun  
That's how they do it where we from  
You know it don't start till one  
That's how they do it where they from

[Pharrell:]

I come into this bitch like liquid  
Drip, drip, then the business  
Click, click, get your picture  
Hermés Trismegistus  
Witness and get lifted  
Basic, nigga I was born in the basement  
Shape shift, nigga I think like a spaceship  
False,  
I am so different than y'all, so far apart  
The way that I balance the bars  
I never fall, and if I do I just call  
The almighty yellow star, God  
Lyrically I'm Optimus Prime  
The car I drive, look far I ride  
When I go by, smoke in your eyes  
So open your eyes, the joke's on you guys  
And you ain't gotta be a mason to see through  
Some of this shit on occasion

The dance that you doing is dumb  
How they do where you from?  
Stickin' out your tongue girl  
But you know you're too young  
A bunch of girls do it and the shit look fun

That's how they do it where we from  
You know it don't start till one  
That's how they do it where they from

I'm like ...

Make a new track, make 'em fall on they crack  
Give 'em a slap, appetizer and smack  
I'm so fat in the back, make the boys all collapse  
When I rap they be all on my jack  
Boys wanna jump on this pussy cat  
Got a new idea, let me switch it  
Man, I'm so futuristic  
Big lips and big, big, big hips  
Body be thick like a biscuit  
Different, rippin' shit, microphone grippin' it  
Gettin' these Benjamins, new car, whippin' it  
Ugh, I'm so far ahead of ya'll, man I'm on top of the stars  
I don't care none of you are, bla,bla  
You best to go rewrite your bars

So what?

How they do it where you from?  
How they do it where you from?  
That's how they do it where we from  
That how they do it where they from
