

# Mitski, Bug Like an Angel

There's a bug like an angel  
Stuck to the bottom  
Of my glass, with a little bit left  
As I got older  
I learned I'm a drinker  
Sometimes a drink feels like family  
Family

Hey, what's the matter  
Looking like your sticker  
Is stuck on a floor somewhere –  
Did you go and make promises you can't keep?  
Well, when you break them  
They break you right back  
Amateur mistake  
You can take it from me  
They break you right back  
Break you right back

When I'm bent over  
Wishing it was over  
Making all variety of vows I'll never keep  
I try to remember  
The wrath of the devil  
Was also given him by God
