

# MØ, When I Was Young

when the sky was gold  
and i needed no protection  
as the wind would blow  
a 1000 miles on no direction  
man it was a beautiful sight  
says were soaked in sunlight  
just so long ago  
but lately I like to imagine

when I was young  
whatever happened it would do me no wrong  
sa long as I could sign my favorite song  
when I was young  
and the holidays went on and on  
we were so high  
let the freeway take us into the night  
and it the dark you sang my favorite song  
when I was young  
and the holidays went on and on  
when I was young

now the sky is gray  
but honestly it doesn't hurt me  
I learned to find my way  
on the patch of no returning  
everything I left behind  
I'm reminded everytime I meet your eyes  
we were so bold and brave  
baby can you imagine

when I was young  
whatever happened it would do me no wrong  
sa long as I could sign my favorite song  
when I was young  
and the holidays went on and on  
we were so high  
let the freeway take us into the night  
and it the dark you sang my favorite song  
when I was young  
and the holidays went on and on  
when I was young

when I was young  
we would play with fire  
when I was young  
and we would fuck the price  
when I was young  
I was do or die  
I would give mt life just to feel like  
when I was young

and the holidays went on and on  
when I was young
