

Monaco, Buzz Gum

Gonna find a way to get out
Turning my whole world upside down
When you realise you'll find the time
And everything will work out just fine
Every day I sit down and wait
Should've know I'd left it too late
I've seen cry I realise
That everything will just work out fine
So let love always shine on
Turn the light on till everyone goes blind
And we'll stay together
Make it better all the time
Did you say that love has its price
Paying with the time's of your life
It's not a crime so realise
That everything will work out alright
Strip away your hopes and your fears
Drowning in the trails of my tears
Stop the lies and dry your eyes
And everything will work out alright
So let love always shine on
Turn the light on till everyone goes blind
And we'll stay together
Make it better all the time
Just for a day
I'll slip away
'Cos there's nothin' left
And it's all such a mess
And I can't recall
Any good times at all
So let love always shine on
Turn the light on till everyone goes blind
And we'll stay together
Make it better all the time
