

Monrose, Your Love Is Right Over Me

Easy come, easy go
its never been enough
searching high, searching low
for my diamond in the rough
lonely days, empty nights
felt like giving up
never thought id ever find
someone i could trust
then i looked into your eyes
and you forever changed my live

chorus:

your love is like gold to me
it rushes right over me
it never gets old
cantt be bought or sold
fullfilling me totally
your love feels so right on me
more precious than life to me
a love that is blind
lasts for all time
the way its supposed to be
...your love it feels like gold to me

take a chance roll the dice
its all that you can do
thought i found it once or twice
everybody plays the fool
when love is real it doesnt fade
wont ever wash away
and now youre here its understood
no words we need to say
cause i know that yourre the one
and my life has just begun

chorus:

your love is like gold to me
it rushes right over me
it never gets old
cantt be bought or sold
fullfilling me totally
your love feels so right on me
more precious than life to me
a love that is blind
lasts for all time
the way its supposed to be
...your love it feels like gold to me

id make any sacrifice
give up everything i own
id pay any price
for the deepest love Ive ever known
youre one of a kind
a love for all time

chorus:

your love is like gold to me
it rushes right over me

it never gets old
cantt be bought or sold
fullfilling me totally
your love feels so right on me
more precious than life to me
a love that is blind
lasts for all time
the way its supposed to be
...your love it feels like gold to me

when love is real it doesnt fade
its never gonna wash away
its understood no words to say
your love is gold to me
now id make any sacrifice
you know that id pay any price
i took the chance, i rolled the dice
it feels so right on me

chorus:
your love is like gold to me
it rushes right over me
it never gets old
cantt be bought or sold
fullfilling me totally
your love feels so right on me
more precious than life to me
a love that is blind
lasts for all time
the way its supposed to be
...your love it feels like gold to me
