

Morningwood, Nu rock

Hey little pretty with the tattooed skin,
The past is repeatin' yeah it's gonna begin
I said hey little pretty with the tattooed skin,
The past is repeatin' yeah it's gonna begin
All you little kids that love the rock n' roll,
You sure got the style but you ain't got the soul
You sure got the style but you ain't got the soul
You sure got the style but you ain't got the soul
Come on get over it
Come on get into it
Come on get over it
Come on get into it
Hey little baby with your studded belt,
When you hear the music right it's gonna make you melt
I said all you little kids that love the rock n' roll,
You sure got the style but you ain't got the soul
Come on get over it
Come on get into it
Come on get over it
Come on get into it
Come on get over it
Come on get into it
It starts right now
Well let's go
1-2-3
Come on let's go
It's a rock n roll revolution
It's a rock n roll evolution
Come on let's go
Sweet little honey with your hair cut right,
When you get the sonic beat you're gonna see the light
I said all you little kids that love the rock n' roll,
You sure got the style but you ain't got the soul
All you little kids that love the rock n' roll,
You sure got the style but you ain't got the soul
All you little kids that love the rock n' roll,
You sure got the style but you ain't got the soul
Come on get over it
Come on get into it
Come on get over it
Come on get into it
Come on get over it
Come on get into it
It starts right now
