

# Morrissey, I Am Two People

I love you - it's murder

I am two people  
One you know but don't like  
The other one you don't know, but you don't want to  
I am two people  
One you know but don't like  
The other one you don't know, but you don't want to

I love you - it's pointless  
in my soul  
If I live or die  
this night

I am two people  
One you know but don't like  
The other one you don't know, but you don't want to  
I have two faces  
One of which you know  
The other one for your sake I never will show

It's just because I love you  
I cannot bear to be around you  
And if only one or the other  
of us would  
drop  
down  
dead
