

Morrissey, I Am Two People

I love you - it's murder

I am two people
One you know but don't like
The other one you don't know, but you don't want to
I am two people
One you know but don't like
The other one you don't know, but you don't want to

I love you - it's pointless
in my soul
If I live or die
this night

I am two people
One you know but don't like
The other one you don't know, but you don't want to
I have two faces
One of which you know
The other one for your sake I never will show

It's just because I love you
I cannot bear to be around you
And if only one or the other
of us would
drop
down
dead
