

# Morrissey, Pregnant For The Last Time

Phlegm lapels for the last time  
Corned beef legs for the last time  
Oh we're so glad that you've finally decided

But then you see someone new  
And you want someone new  
So you have someone new  
I don't blame you  
We would all do the same as you  
If ever we had the nerve to

Chips with cream for the last time  
&quot;The People's Friend&quot; for the last time  
Oh we're so glad that you've finally decided

Tiny striped socks for the last time  
Pokes and prods for the last time  
And the doctor said:  
&quot;Don't nod your head until June!&quot;

But then you see someone new  
And you want someone new  
So you have someone new  
I don't blame you  
We would all do the same as you  
If ever we had the chance to

Sick at noon for the last time  
And who is gonna clean up, would you be so kind?  
Oh everybody stares at the strange clothes that you're wearing

Bad advice for the last time  
And people being nice for the very last time  
Oh we're so glad that you have finally decided
