

# Mortal Love, Hope

Just lay me down in shadows deep  
But I don't fall asleep the voices say  
I'll sleep a while before we meet  
This is my last time anyway  
Don't let me dream of things I fear  
I know now, hope was never true  
To lessen pain I keep it near  
The only thing I ever learned from you  
Everything I do or say  
Whispers myself away  
Fade from this world  
I turn my face  
And hope to burn  
From this world
