

Mother Mother, Nobody Escapes

A jellyfish, a gigolo, a politic
Don't make a lick of this, no
Nobody here, nobody escapes

A puppy dog, a butterfly
Ladies and babies, you're first in line
Nobody here, nobody escapes
Amen

And it won't go easy on you
Just cause you're skinny
And it won't go easy on me
Just cause I'm pretty, yeah pretty ugly

The innocent, the animals
Everyone here, get down in the hole
Nobody here, nobody escapes
Amen, yeah

And it won't go easy on you
Just cause you're so skinny
And it won't go easy on me
Just cause I'm so pretty
Cause I'm pretty, cause I'm pretty pretty pretty ugly

So follow me into the sky
And let the sun burn you alive
Nobody here, nobody escapes
Nobody here, nobody escapes
Nobody here, nobody escapes
Amen, hell yeah, Satan

Nobody nobody nobody nobody nobody escapes
Nobody nobody nobody nobody
Nobody nobody nobody nobody
Nobody nobody nobody nobody...

Nobody nobody
Nobody nobody
Nobody nobody...
