

# Motley Crue, Public Enemy #1

You and me  
We're gonna escape tonight  
On the run  
Under the moonlight  
Don't think about nothin'  
Don't think about nothin'  
Tragedy  
Runnin' the red light  
Hear the screams  
Another one dies tonight  
Don't think about nothin'  
Don't think about nothin'

[Pre Chorus:]  
Do you know how it feels  
To be wanted  
Do you know how it feels  
To be wanted  
Do you know how it feels  
To be wanted  
To be under the gun  
On the run, having fun  
When you're young  
You're so young  
When you're young

[Chorus:]  
Public enemy #1  
Oh yeah  
I'm public enemy #1  
Oh yeah  
I'm public enemy #1  
Oh yeah .....  
Climbing high  
Fast as the speed of sound  
Loser's dreams  
Crashing to the ground  
Don't think about nothin'  
Don't think about nothin'

You and me  
Under the gun tonight  
On the run  
We're lost in the lime light  
Don't think about nothin'  
Because we're gonna get crazy
