

Mr. Probz, Gone (ft. Anderson .Paak)

I guess I'll go step[ping
even though the world is upside down
wnet to know answers to the questions
at the edge of the map
will you fall down
let up the mast so we can set sail
not too many ways for me to plead help

in the big city
are streets really paved with gold
all I need us a witness
and a pack of cigarettes to smoke

light one up and I'm gone
I'm so gone
/4x
I headed to the place I belong
