## Mungo Jerry, Nightime

I watch the lamplight shine, like the halo in the night, Gathering moths with each hour, Flying.....

Sometimes a car goes by, shatt'ring the still of the night, Head lamps flash on my wall, Shadows.....

There hangs a silver cloud, crickets call from their crowd, Moon shows its naked form, Beaming.....

Sometimes a car goes by, shatt'ring the still of the night, Head lamps flash on my wall, Shadows.....
