

# Muse, Exogenesis: Symphony Part 1 (Overture)

Aping my soul  
You stole my overture  
Trapped in God's program  
Oh I can't escape

Who are we?  
Where are we?  
When are we?  
Why are we?  
Who are we?  
Where are we?  
Why, why, why?

I can't forgive you  
And I can't forget

Who are we?  
Where are we?  
When are we?  
Why are we?  
Who are we?  
Where are we?  
When are we?  
Why are we in here?
