

# Muse, Liquid State

Take me for a ride  
Break me up and steal what's left inside  
And hope and pray inequity has died  
Sigh enough to stop

I'm already ???  
Bring me peace and wash away my dirt  
Spin me 'round and help me to divert  
Walk into the light

Warm my heart tonight  
And hold my head up high  
And help me to survive!

Kick me when I'm down  
Feed me poison  
Fill me 'til I drown  
Wake me up before I get pushed out  
And fall into the night

Warm my heart tonight  
And hold my head up high  
And help me to survive!
