## Muse, Plug In Baby

I've exposed your lies, baby The underneath is no big surprise Now it's time for changing And cleansing everything To forget your love

My plug in baby Crucifies my enemies When I'm tired of giving My plug in baby In unbroken virgin realities Is tired of living

Don't confuse Baby you're gonna lose Your own game Change me Replace the envying To forget your love

My plug in baby Crucifies my enemies When I'm tired of giving My plug in baby In unbroken virgin realities I'm tired of living

And I've seen your loving But mine is gone And I've been in trouble
