

Muse, The Dark Side

I have lived with darkness
for all my life
I've been persuaded
you'd be afraid
if you could feel my pain
and if you could see things
I am able to see

break me out
break me out
let me flee
break me out
break me out
set me free

I hail from the dark side
for all my life
I've been resigned
you'd be scared
living with my despair
and if you could feel the things
I am able to feel

break me out
break me out
let me flee
break me out
break me out
set me free

break me out
break me out
let me flee
break me out
break me out
set me free

save me from the dark side

break me out
break me out
let me flee
break me out
break me out
set me free
