

My Black Sky, May Be

I sat in the dark
'cause you broke my heart
you dont feel the same way
you never wanna run away
your smile makes me crazy
and you dont care about me
i'm always waiting for you
and hopping youre doing too

(chorus):
and may be
if i say "i'm sorry"
may be
you'll forgive me
may be...
and may be
you still love me
may be
you miss me
may be...

now you can do
what i'd never allow you
it cant be
'cause you said that you and me
it was for ever
but now it's over
the look in your eyes makes me crazy
'cause you say that you forgot me

(chorus):
and may be
if i say "i'm sorry"
may be
you'll forgive me
may be...
and may be
you still love me
may be
you miss me
may be...

(bridge):
you said you'll never come back with me
i miss you
i tried to say "i'm sorry";
but you said "f**k you";

(chorus):
and may be
if i say "i'm sorry";
may be
you'll forgive me
may be...
and may be
you still love me
may be
you miss me
may be.....
