

My Bloody Valentine, Paint A Rainbow

Earthen trail of slimy goo
I smear it on your cheeks like rouge
Eyes of red and lips of blue
It's cold and safe inside of you

Tie me down and shine
all over your body
Little drops of shark infested sea
When the colours change
I will chase your sadness away
See it glow when I paint a rainbow
Flowers grow all over you
Daffodils and roses too
Sky is painting a rainbow
Around your head like a halo

Tie me down and shine
all over your body
Little drops of shark infested sea
When the colours change
I will chase your sadness away
See it glow when I paint a rainbow
