

My Indigo, Star Crossed Lovers

Starcrossed Lovers

Star-crossed lovers high, star-crossed lovers high

We're like strangers walking down the aisle, holding hands and trying to pretend
We're like lovers but here we are again, entangled in a dance that never ends
This is karma, this is where our worlds collide, so for better for worse

Let's bite that magic bullet and leave it all behind
I need to feel the mercy of a star-crossed lovers high
Bite that magic bullet, enjoy this crazy ride
Only you can give me a star-crossed lovers high

So gimme that star-crossed lovers high
Star-crossed lovers high
So gimme that star-crossed lovers high
Star-crossed lovers high

We are dancing where the wild flowers grow
We're lost within a world that's so intense
We go crazy time and time again, spinning on a storm that never ends
This is karma, this is where our worlds collide, so for better for worse

Let's bite that magic bullet and leave it all behind
I need to feel the mercy of a star-crossed lovers high
Bite that magic bullet, enjoy this crazy ride
Only you can give me a star-crossed lovers high

So gimme that star-crossed lovers high
Star-crossed lovers high
So gimme that star-crossed lovers high
Star-crossed lovers high

Star-crossed lovers high

So gimme that star-crossed lovers high
Star-crossed lovers high
