

# My Insanity, Infinity

Are you excited? Why?  
You'll be the hero  
Say goodbye to your vicinity

Look what a starlit night  
Take a seat - forward line of vision  
10 seconds - maximum adrenaline  
Look what a starlit night

No drugs can expend the mind so strong  
Emotional outburst after a while  
Hormones gone crazy  
Massive it drills through my own galaxy

On the verge of tears  
No mind expansion  
The first cry of fear  
It's too late for recall

Soon it's time to start  
Say goodbye to your wife  
Say goodbye to your vicinity
