

N.E.R.D., Chariot Of Fire

Sorry that we took so long
You probably thought we forgot your song
It makes us smile just so you know
To see your eyes at our shows

I wrote this song while I was drunk
I hope you don't mind that it was wine
But you called me and said you ain't want your friends to know
But what if you had to go

What about then...What about then Mildred
Excuse me I mean music...What about then?

Sweet chariot of fire come swing us all away
Sing us a song today away-ee-ay
Away-ee-ay, Away-ee-ay
Away-ee-ay, Away-ee-ay
Away-ee-ay, Away-ee-ay
Or maybe you're in your car just driving away
And everything's ok

Float around when there's no need to walk
And there's nothing but thoughts and feelings no talk
Where there's golden bees and silver birds
And dreams are like shit they come true and hurt

Every moment...feels like a spin Mildred
I mean a spin music...so what about then?

Chorus

Where every star flickers bright as a sister
Just by the whisper commands your love
The white sun in the sky all the flowers harmonize
That's where your starry eyes will stand above

Mildred, Mildred
Mildred, Mildred (nah fuck it I mean Mildred)
Mildred, Mildred (how the fuck you gon' tell me it's Mildred)
Music (I'm sorry not music) (fuck it)

Chorus
