

# Napoli, My Universe

When you're at a loss  
Nothing seems to be close  
Do not sink into despair  
When you feel welcome and strong  
Feeling that you're alone  
Look at me, I'm with you

All bound you into my world  
And you believe in this song  
Like my love for you

Sunshine in my Universe  
Then leave me try to immerse  
You soon will love so in life  
I give you strength to spread your wings  
Accept the love that it brings  
This story is old as time

All my life fills for you  
You feel your dreams coming true  
Hold my hand, forget your mistakes  
Embrace you like coming from  
The depths of your crying heart  
Feel you're the one on this love

All bound you into my world  
And you believe in this song  
Like my love for you

Sunshine in my Universe  
Then leave me try to immerse  
You soon will love so in life  
I give you strength to spread your wings  
Accept the love that it brings  
This story

Feel you never close your eyes  
Won't give a time new chance  
My fate's upon you throughout time  
Sunshine in my, sunshine in my Universe  
Then leave me try to immerse  
You soon will love so in life  
I give you strength to spread your wings  
Accept the love that it brings  
This story is old as time
