

Nasty Boy Klick, Are U Still Down

Hey How you doing girl?
Basically what i just want to know
Are you still down for mine

oooh you know that I'll always be down
(are you still down for mine)
Baby yeah
(are you still down for mine)
and you should know I will be around baby yeah

I think it was the third grade when I realized
How much I was attracted to your light brown eyes
'cause ever since that very first day of school
I've felt a little something when I looked at you
And even when my friends would tease and laugh,
I would always try to sit next to you in class
Maybe it was 'cause you always treated me cool
But if it wasn't for you i wouldn't go to school
I'd rather be home, writin your name a thousand times
Day dreamin in the lunch line
And on the playground time flies by so fast
But lucky for me we were in the same class
Now I'm looking forward to after school
Sometimes i got brave and walked home with you
I've only got a dollar but i promise you that
I'ma get you a little something from the ice cream man

CHORUS

Now it's a brand new year, and we're both in fifth grade
My my my, how the summer changed, the way you walk, the way you talk, the way you
dress
It's like meeting you all over again
And for the first time you passed me a little note
Giving me your number to call you at home
I'm so excited, tellin all my friends
and when I pick up the phone I'm gettin kinda nervous
Walkin with your girlfriends, talkin to the guys
Even made me a little jealous sometimes
But all the jealousy just went away
When I played football and you would yell my name
The years pass by, and we continue to grow
If it's up to me, I'll never let you go
I guess the question keeps comin' to mind
Tell me girl Are you still down for my

I could search this way,
but i will never find another love like us
I'm so glad your are mine
If you ever go, I will be so sad
How can I survive, I think I would die

Jr. High around the corner
What we gonna do
I hope we'll be together for a class or two
And maybe lunch time we can reminisce
Talk about the weekend,
Study for a test
What ever destiny brings to you and me
I hope that you always remember we, belong together
Never meant to be apart
Give me all your trust, and I'ma give you my heart

I heard many times that men don't cry

But when I think of losing you, I get a chill inside
People everywhere, doing everybody wrong
I wish I could fix it by writin this song
I guess reality brings it down to life
And a loving warm heart can turn cold as ice
But I'ma do whatever to show you that I'm,
Straight down for yours if your down for mine, girl

Chorus
