

Natalia Lesz, Beat Of My Heart

Can you come over here
Can you show me what's real
Can you open my heart
Show me what I should feel
When you're looking at me
Never felt so close
Put your loving on me
Show me what I should want

In the depths of my soul
I can feel the heavens
Feel the rhythm
As it flows
Ready to explode

Move to the beat of my heart
Feel it beating
Move
The rhythm can last forever
When we're together
I don't wanna stop
Don't let the pressure stop
Please don't stop

Before you it was dark
Now there're stars in the sky
You made everything clear
All the planets aligned

Go
Can you stay with me
You
Set my body free
Hold me closer feel my pulse go
Beat
