

Natalia Lesz, In Love With You

I am in love
I am bored
I am in love
Drama feels better
I am in love
With your distance
I am in love with what's there not to touch
I am in love with the silence
In love with fatigue
I am in love to get away from me
I am in love with being mute
I am in love with being sick
I am in love with everyone but me

I am in love with you
I am in love

I am in love with my tears
Dirty hair and aching body
I don't care how it feels
Falling low I'll give myself away
I am in love I won't tell
Do whatever the hell you want with me
We are climbing to the end, wanna do it once again
You make me feel so special

I am in love with you
I am in love

Girl you must be out of your mind
Pull yourself together
Crazy look around you'll be fine
You deserve better
