

# Natalia Lesz, In Love With You

I am in love  
I am bored  
I am in love  
Drama feels better  
I am in love  
With your distance  
I am in love with what's there not to touch  
I am in love with the silence  
In love with fatigue  
I am in love to get away from me  
I am in love with being mute  
I am in love with being sick  
I am in love with everyone but me

I am in love with you  
I am in love

I am in love with my tears  
Dirty hair and aching body  
I don't care how it feels  
Falling low I'll give myself away  
I am in love I won't tell  
Do whatever the hell you want with me  
We are climbing to the end, wanna do it once again  
You make me feel so special

I am in love with you  
I am in love

Girl you must be out of your mind  
Pull yourself together  
Crazy look around you'll be fine  
You deserve better
