

# Natalia 'Natu' Przybysz, New

And I've been thinking if maybe  
You are just a part of myself.  
And I've been hoping to keep You forever mine.  
It's been a lifetime of learning You better and better.  
So today i know You by heart.  
J've got a new face  
A new smile, a new voice  
Since I've got You.  
My life had stopped  
then moved again  
So fast with You.  
I lost my sense of heart defense and experience  
You really raised my consciousness  
You woke me up.  
And I've been thinking if maybe  
You are just part of myself  
And I've been hoping to keep You forever mine  
It's been a lifetime of learning You better and better  
So today I know You by heart  
You've got a new face, new smile, new voice  
Since You've got You  
Your life had stopped  
Then moved again  
So fast for You  
You lost Your sence of  
Heart defense and all the expirience  
Your really raised Your consciousness  
When You woke up.  
And I've been tjinking if maybe  
You are just a part of mysef  
And I've been hoping to keep You forever mine  
It's been a lifetime of learning You better and better  
So today I know You by heart  
I got myself back  
For me.
